

Flo Martin MISSIONARY In Cantel, Quetzaltenango Guatemala

2017

Dear brothers, we salute you, we want to share what God has done in our Cantel area, from Guatemala. God has been good, he has worked in the lives of many new believers.

In these last months God allowed us to baptize two young people, Antony of 17 years and Mario of 15. Both young people came as children to the Church, have grown up and have understood the importance of becoming Christ and baptized as the Bible teaches, both continue attending and Antony is now collaborating in the Church, helping in various ways. Pray for these young people.

We also carried out a special service called the day of the Bible, we invited the parents of the children who attend the Church, several attended, each class sang a special, the gospel was preached to all those who attended, several asked Christ for forgiveness for their sins, everything went to the glory of God.

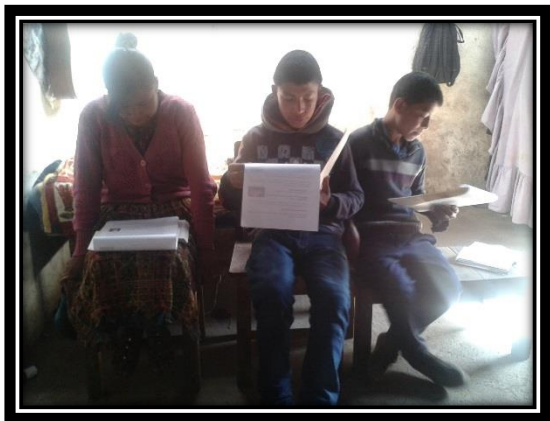

We continue working with the children of our area, every Sunday we use transportation to bring children from different places, and others come walking with sisters and brothers who bring them. We have special programs and different activities, and as always, we share the Word of God. Pray for the salvation of these children.

God has blessed the youth group,
The Lord has brought many young
people to the Church, there have
been different activities with
youth from other independent
Baptist churches, and several are
now serving in different ways and
others are willing to serve next
year, including our son Timothy.
Pray for these young people.

We continue in evangelism, we go out twice a week to share Christ, for this year we have shared more than 1,000 people the gospel with other brothers of the Church, we present that only Christ can save them. In addition to this, my wife, I and other young people went to teach Bible classes (discipleship) to new converts, and we have seen God work. Keep praying that we will not stop sharing Christ.

Goals for next year: As a goal for 2018 is to start a Bible Institute to train believers to serve in the work of God, and if He in his grace allows us to send missionaries or pastors to different places, so be it, glory God .

Pray that we still do not have enough money to buy property, every six months the Church collects money to save and buy property later.

In January we will have a special anniversary service for the Church, there is a lot of work from now on, so we will appreciate your prayers.

Pray for our family, our goal is to continue until Christ comes or calls us into his presence. Thank you for your donations this year, it has been a blessing. Have a prosperous year 2018.

In Christ, Sop Hall Family and Flora Martin
