

# Guatemala

March - April 2024

## So Many Projects!

We are excited to announce that our daughter and son-in-law, Jessica and Luis, decided to bring their first baby into the world here in Guatemala. So while Jessica works on building a baby, we are busy preparing a place for their family to live for a few months. It will be an apartment on the top floor of our home. It's a labour of love, for sure!

Our church van has been having issues with the motor, and at the same time our family van's transmission went out. We've been making do, picking up folks for church services in several cars, thankful for help from church members when they are able. God always fills in the gaps! Would you prayerfully consider helping with these financial needs for vehicle repairs? Thank you in advance!

The churches are doing well. We enjoyed a beautiful, solemn time of worship and gratitude, keeping the Lord's Supper and remembering His sacrificial death, burial, and then His glorious resurrection! In April we had our annual Family Conference, and invited a national pastor and his wife to speak to our people on different topics for godly families. It was a good, edifying time! Several souls were saved this month, and we are planning a baptismal service soon.

The Seminary continues to train up young servants for the LORD. We are grateful for all the ministries that He allows us to labour in, for the sake of His Kingdom. God bless you all as you labour where you are, and with us in prayer and in giving to the work.

In His Service,

*Bro. Daniel, for the Coates Family*
