'Reaching People in Closed Countries'

Dear Friends,

Reading the third Lamentation of Jeremiah pretty much describes my husband's plight at this time. Unable to walk, limited speaking ability, being lifted from bed to wheelchair, completely dependent on your wife for a drink of water, a change of clothes, etc. is hard! But God is still here, His mercies are new every morning, great is His faithfulness! Even through all the indignity and trials that come with a massive stroke, Leon is sweet and pleasant. I know for a fact that the prayers of our friends and family are what has blessed his life. The continued financial support from many of you is a blessing also.

Hernan Meneses is a missionary in South Texas who has a Spanish radio ministry that reaches into Mexico and South Texas with the Gospel of Jesus Christ. It also reaches in to prisons and invites inmates to give their lives to Christ. Pastor Meneses also runs a correspondence course to disciple those who are interested in learning more about the Word of God. We were contacted this month by Pastor Meneses about using Accent Radio's (Nuevo Acento in Spanish) radio programs to air on his daily broadcasts. We have hundreds of broadcast hours on tape that have been in storage since Leon became ill. We thank the Lord that these broadcasts that you helped us develop are again being used for God's glory. Another example of God's faithfulness.

As for Leon, he had another session of rehab that lasted about 2 months. It just ended a few weeks ago and the therapists did not seem to think that any more therapy would make a difference, so we have discontinued it. We are paying, out of pocket, for a speech therapist to come weekly to help Leon improve his speech and swallowing ability and that is making a difference and giving him some hope of improvement.

We will be dropping the Post Office box in a few months so all future mail should be directed to our home address of 2915 Burney Lane, Southlake TX 76092.

Thanks for your prayers for because of them, God is faithful and has given us more strength than we thought we had.

May God richly bless you all,

Leon and Becky Wambsganss
